

CONTI[®] Machine hose

Application

Since many years ContiTech has been specialised in producing and supplying hoses without reinforcements (machine hoses) for a great variety of applications such as:

- › Transport of fuel oil, petrol, diesel and bio diesel
- › Transport of engine oil, gear lubricant oil and power steering oil
- › Hoses for windscreen washers
- › Air control
- › Protecting hoses (in general)
- › Transport of milk (for example teat hoses) and potable water according to KTW and DVGW W270.

The materials used are either CR, NBR, ECO, HNBR, ACM, IIR, VMQ or FPM. The admissible working temperatures are in the range of -40°C up to +230°C / -40°F up to +446°F. The hoses are produced with inner diameters 3 - 40 mm. Please send your detailed inquiries to the address mentioned below.
